GEOGRAPHY

CREDIT HOURS: 0.5  COURSE LENGTH: 1 Semester

COURSE DESCRIPTION

The Geography course focuses on the processes and patterns in the environment that shape human interaction with the environment, with particular reference to the causes and consequences of the spatial distribution of human activity on the Earth’s surface. Students develop multicultural understanding and use geographical concepts and skills to acquire information and systematically apply decision-making processes to real-life situations. They acquire an understanding of interrelationships between people and their environment.
